

Seminar on
THEORETICAL PARTICLE PHYSICS

on Wednesday, 15 April 2015, at 2.00 p.m. c.t.
Theresienstraße 37 / III, Seminar Room A318

Speaker: Antonio Delgado
Theoretical High Energy Physics
Autonomous University of Madrid, Spain

Title: „Signatures of natural susy“

Abstract

After the first run of the LHC the parameter space of supersymmetry has shrunk, in this talk I will discuss signatures of simplified models for run II, making special emphasis on difficult regions.
